German-Norwegian Scholarship Programme in “Energy Sciences”

- For Master / PhD students and junior researchers

E.ON Stipendienfonds is a scholarship fund designed to promote and strengthen **German-Norwegian academic relations in the field of energy sciences**. This is achieved by awarding mobility grants to Master / PhD students and junior researchers. In addition, the aim is to organize workshops, conferences and seminars and further expand the existing alumni network.

SUMMER ACADEMY 2017

From 6 till 12 August 2017 (arrival day: 6th / departure day: 12th), **E.ON Stipendienfonds will organize a Summer Academy** at [Internationales Begegnungszentrum Sankt Marienthal](#), Saxony/Germany.

The title of the Summer Academy is: „**Transformation of Energy Systems**“. It contains

- Workshops with active involvement of the participants moderated by professors with energy experience;
- Excursions to energy projects;
- Presentations and discussions held by external experts;
- An attractive cultural programme

Participants can choose from two highly actual workshop topics. A detailed programme will be established in due time.

Target group: MA and PhD students from Norway and Germany who have already finished an advanced study/project work in energy sciences.

The **application for participants is open 15 January till 15 March**.

ABOUT E.ON Stipendienfonds

E.ON Stipendienfonds (formerly: Stipendienfonds (E.ON) Ruhrgas) was established at Stifterverband für die Deutsche Wissenschaft, Essen, in 1983. Until 2014 it covered four scholarship programmes: Economics, History, European Law and Politics. As of 2014/15 a new interdisciplinary scholarship programme has been introduced to replace the others: Energy Sciences.

Legal disclaimer

There is no entitlement to the award of a scholarship. If awarded, recipients are themselves responsible for tax treatment.
