Hva gjør en revisor?

Glem det du har hørt om revisjon. Jobben er teknologidrevet, variert, utfordrende og utviklende. De spennende oppgavene står i kø.

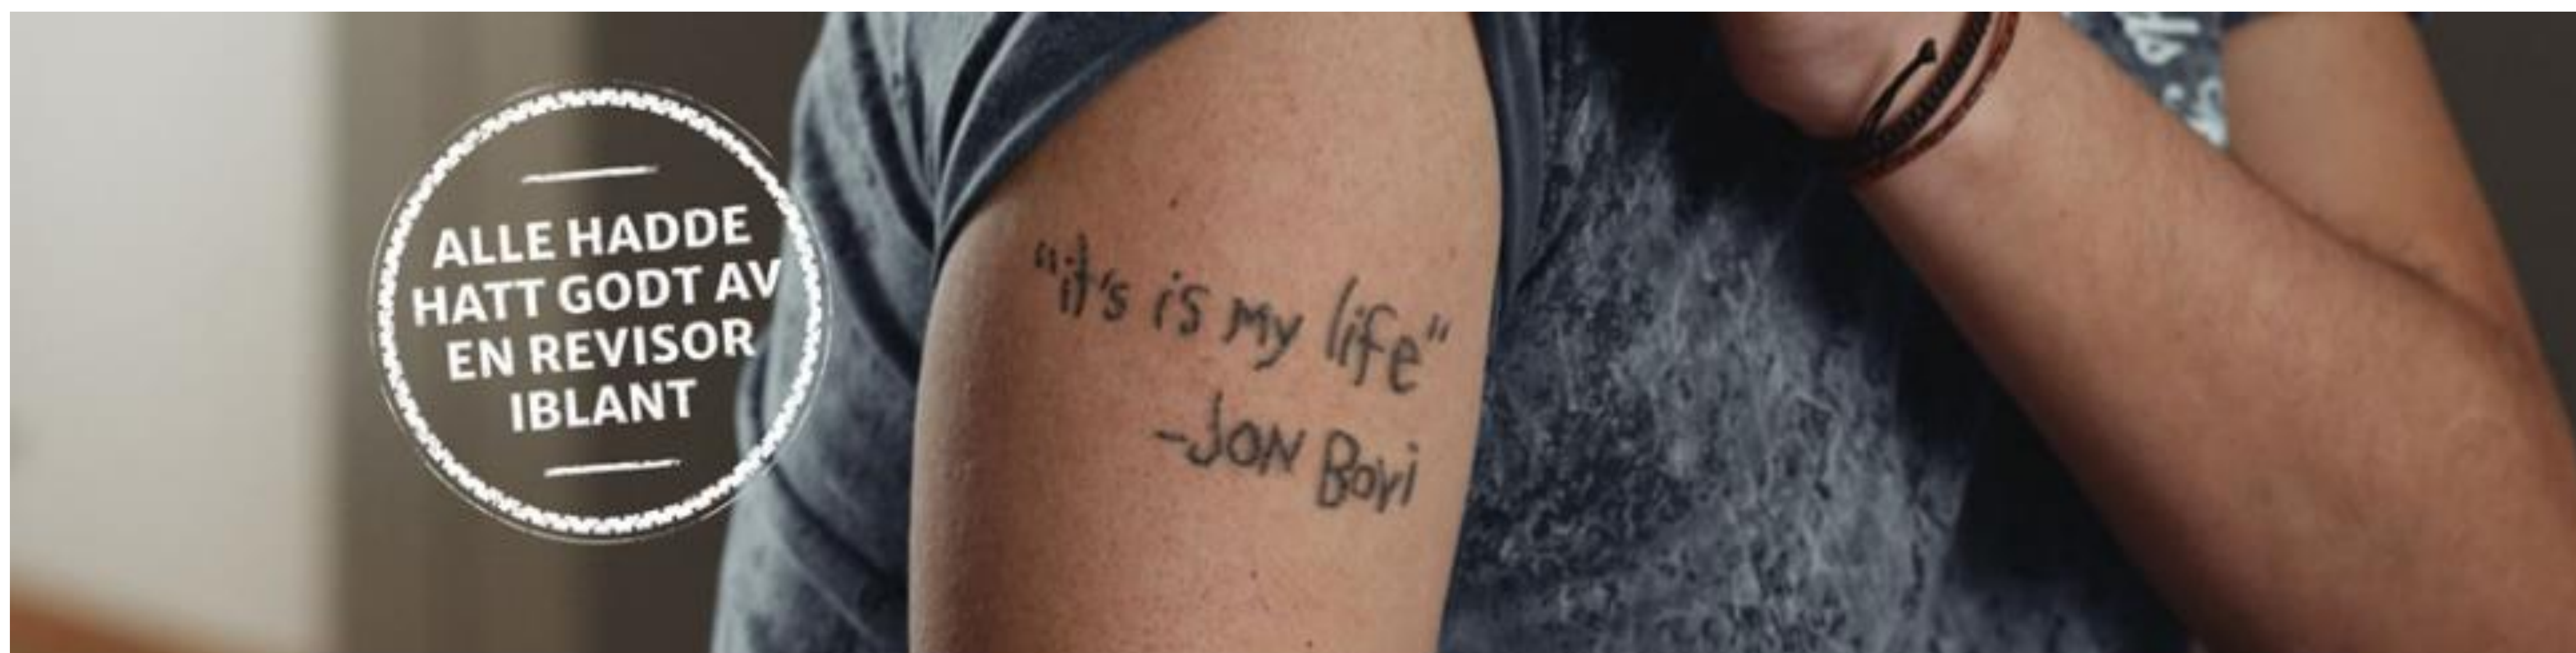

Publisert: 17.03.2022

Revisoryrket er teknologidrevet og i stadig utvikling. Få ting er så uberettiget som myten om revisjon som et litt grått og rutinepreget yrke.

Digitaliseringen bidrar til at det blir færre rutineoppgaver, og mange nye og spennende oppgaver står i kø. Kjernen i revisjon er den samme, men måten vi jobber på, har utviklet seg enormt.
