

Statutes for the Learning Environment Award at NHH

1. The Learning Environment Award at NHH aims to make good work visible for the learning environment at NHH. The recipient of the award must have done something beyond what one would normally expect to promote inclusion and well-being for all NHH students.
2. The award can be awarded to any student, student group or employee of NHH.
3. The Learning Environment Committee (LMU) at NHH awards the prize each spring semester, as long as there are worthy candidates.
4. Students and staff at NHH can submit proposals for candidates. The nomination must contain the candidate's name, reasons and contact person. LMU publishes deadlines and procedures for nominating candidates.
5. A unanimous LMU determines the award winner.
6. The award is a plaque and diploma, as well as an invitation to apply to LMU for support for future development initiatives aimed at promoting inclusion and well-being for all students.

Nominees can be announced together with the winner of the prize.
