Paral	lel sessions 3
	mber 2016 09.00-10.30
	AUD. Jan Mossin
Bogazici University	Payoff inequity reduces the effectiveness of correlated-equilibrium recommendations
University of Zurich	The unrealized value of centralization for coordination Group behaviour in tacit coordination games with focal points. An experimental
University of East Anglia	investigation
University of Erlangen-Nuremberg	Minimum effort coordination in continuous time - an experimental analysis with changing payoff structures
	AUD. Fin Kydland
	Saving behaviour and the role of sharing norms
IIES, Stockholm University and The	0.000
Choice Lab, NHH	Measuring and changing control: women's empowerment and targeted transfers
University of Göttingen	Taking on power: experimental evidence from matrilineal and patriarchal societies in India
omversity or octanigen	Solicites III III III
	AUD Toris Hanner
University of Maryland	AUD. Terje Hansen Preference for the size of ambiguous jar
zcisicy or maryiana	
University of London, Birkbeck	Measuring ambiguity preferences: a new ambiguity preference module
Laval University	Ambiguity, belief-updating, and measurement of expectations
University of Munster	The rich domain of ambiguity explored
	AUD. D
Aarbus Hairorsitu	laint audovation for the public good, theory and augoviennestal audones
Aarnus University	Joint exploration for the public good: theory and experimental evidence Group vs. individual contributions to a public good: evidence from a framed field
Heidelberg University	experiment
School of Economics, University of Cape	The announcement effect: the impact of early warnings of future thresholds
	under different framing and risk contexts Cooperation in a risky world
	,
dour	AUD. 21
	The demand and supply for esteem: an experimental analysis
Nanyang Technological University	Multidimensional group identity: an experimental study
Helmut Schmidt University Hamburg	Entitlements and loyalty in groups: an experimental study
, ,	Choosing who you are: the structure and behavioral effects of revealed
Helmut Schmidt University Hamburg Goethe University Frankfurt	
, ,	Choosing who you are: the structure and behavioral effects of revealed identification preferences
Goethe University Frankfurt	Choosing who you are: the structure and behavioral effects of revealed identification preferences AUD. 22
, ,	Choosing who you are: the structure and behavioral effects of revealed identification preferences AUD. 22 Fairness preferences and limited information
Goethe University Frankfurt Norwegian School of Economics	Choosing who you are: the structure and behavioral effects of revealed identification preferences AUD. 22
Goethe University Frankfurt Norwegian School of Economics University of Heidelberg	Choosing who you are: the structure and behavioral effects of revealed identification preferences AUD. 22 Fairness preferences and limited information Fast and fair - an experimental comparison of two hypotheses Fairness and friendships: the horizontal transmission of fairness norms among
Norwegian School of Economics University of Heidelberg University of East Anglia	Choosing who you are: the structure and behavioral effects of revealed identification preferences AUD. 22 Fairness preferences and limited information Fast and fair - an experimental comparison of two hypotheses Fairness and friendships: the horizontal transmission of fairness norms among 600 adolescents Performance, luck and inequality: an experimental investigation of fairness
Norwegian School of Economics University of Heidelberg University of East Anglia	Choosing who you are: the structure and behavioral effects of revealed identification preferences AUD. 22 Fairness preferences and limited information Fast and fair - an experimental comparison of two hypotheses Fairness and friendships: the horizontal transmission of fairness norms among 600 adolescents Performance, luck and inequality: an experimental investigation of fairness
Norwegian School of Economics University of Heidelberg University of East Anglia Norwegian School of Economics	Choosing who you are: the structure and behavioral effects of revealed identification preferences AUD. 22 Fairness preferences and limited information Fast and fair - an experimental comparison of two hypotheses Fairness and friendships: the horizontal transmission of fairness norms among 600 adolescents Performance, luck and inequality: an experimental investigation of fairness preferences under uncertainty
Norwegian School of Economics University of Heidelberg University of East Anglia Norwegian School of Economics	Choosing who you are: the structure and behavioral effects of revealed identification preferences AUD. 22 Fairness preferences and limited information Fast and fair - an experimental comparison of two hypotheses Fairness and friendships: the horizontal transmission of fairness norms among 600 adolescents Performance, luck and inequality: an experimental investigation of fairness preferences under uncertainty AUD. 23 Rational expectations and depth of reasoning in strategic interactions
Goethe University Frankfurt Norwegian School of Economics University of Heidelberg University of East Anglia Norwegian School of Economics	Choosing who you are: the structure and behavioral effects of revealed identification preferences AUD. 22 Fairness preferences and limited information Fast and fair - an experimental comparison of two hypotheses Fairness and friendships: the horizontal transmission of fairness norms among 600 adolescents Performance, luck and inequality: an experimental investigation of fairness preferences under uncertainty AUD. 23
Goethe University Frankfurt Norwegian School of Economics University of Heidelberg University of East Anglia Norwegian School of Economics cision Making University of East Anglia	Choosing who you are: the structure and behavioral effects of revealed identification preferences AUD. 22 Fairness preferences and limited information Fast and fair - an experimental comparison of two hypotheses Fairness and friendships: the horizontal transmission of fairness norms among 600 adolescents Performance, luck and inequality: an experimental investigation of fairness preferences under uncertainty AUD. 23 Rational expectations and depth of reasoning in strategic interactions Big data in the lab - how do consumers fare when predictive algorithms work
Goethe University Frankfurt Norwegian School of Economics University of Heidelberg University of East Anglia Norwegian School of Economics cision Making University of East Anglia Tilburg University	Choosing who you are: the structure and behavioral effects of revealed identification preferences AUD. 22 Fairness preferences and limited information Fast and fair - an experimental comparison of two hypotheses Fairness and friendships: the horizontal transmission of fairness norms among 600 adolescents Performance, luck and inequality: an experimental investigation of fairness preferences under uncertainty AUD. 23 Rational expectations and depth of reasoning in strategic interactions Big data in the lab - how do consumers fare when predictive algorithms work against them?
Goethe University Frankfurt Norwegian School of Economics University of Heidelberg University of East Anglia Norwegian School of Economics Sision Making University of East Anglia Tilburg University Maastricht University Lancaster University Management	Choosing who you are: the structure and behavioral effects of revealed identification preferences AUD. 22 Fairness preferences and limited information Fast and fair - an experimental comparison of two hypotheses Fairness and friendships: the horizontal transmission of fairness norms among 600 adolescents Performance, luck and inequality: an experimental investigation of fairness preferences under uncertainty AUD. 23 Rational expectations and depth of reasoning in strategic interactions Big data in the lab - how do consumers fare when predictive algorithms work against them? Anchoring in bargaining
Goethe University Frankfurt Norwegian School of Economics University of Heidelberg University of East Anglia Norwegian School of Economics Sision Making University of East Anglia Tilburg University Maastricht University Lancaster University Management School	Choosing who you are: the structure and behavioral effects of revealed identification preferences AUD. 22 Fairness preferences and limited information Fast and fair - an experimental comparison of two hypotheses Fairness and friendships: the horizontal transmission of fairness norms among 600 adolescents Performance, luck and inequality: an experimental investigation of fairness preferences under uncertainty AUD. 23 Rational expectations and depth of reasoning in strategic interactions Big data in the lab - how do consumers fare when predictive algorithms work against them? Anchoring in bargaining The precautionary principle as a heuristic patch
Goethe University Frankfurt Norwegian School of Economics University of Heidelberg University of East Anglia Norwegian School of Economics Sision Making University of East Anglia Tilburg University Maastricht University Lancaster University Management School ve Action Lund University	Choosing who you are: the structure and behavioral effects of revealed identification preferences AUD. 22 Fairness preferences and limited information Fast and fair - an experimental comparison of two hypotheses Fairness and friendships: the horizontal transmission of fairness norms among 600 adolescents Performance, luck and inequality: an experimental investigation of fairness preferences under uncertainty AUD. 23 Rational expectations and depth of reasoning in strategic interactions Big data in the lab - how do consumers fare when predictive algorithms work against them? Anchoring in bargaining The precautionary principle as a heuristic patch AUD 24. Getting to the Top: affirmative actions in multi-stage tournaments How does affirmative action affect gift exchange? Evidence from labor market
Goethe University Frankfurt Norwegian School of Economics University of Heidelberg University of East Anglia Norwegian School of Economics Sision Making University of East Anglia Tilburg University Maastricht University Lancaster University Management School	Choosing who you are: the structure and behavioral effects of revealed identification preferences AUD. 22 Fairness preferences and limited information Fast and fair - an experimental comparison of two hypotheses Fairness and friendships: the horizontal transmission of fairness norms among 600 adolescents Performance, luck and inequality: an experimental investigation of fairness preferences under uncertainty AUD. 23 Rational expectations and depth of reasoning in strategic interactions Big data in the lab - how do consumers fare when predictive algorithms work against them? Anchoring in bargaining The precautionary principle as a heuristic patch AUD 24. Getting to the Top: affirmative actions in multi-stage tournaments How does affirmative action affect gift exchange? Evidence from labor market experiments
Goethe University Frankfurt Norwegian School of Economics University of Heidelberg University of East Anglia Norwegian School of Economics Sision Making University of East Anglia Tilburg University Maastricht University Lancaster University Management School ve Action Lund University	Choosing who you are: the structure and behavioral effects of revealed identification preferences AUD. 22 Fairness preferences and limited information Fast and fair - an experimental comparison of two hypotheses Fairness and friendships: the horizontal transmission of fairness norms among 600 adolescents Performance, luck and inequality: an experimental investigation of fairness preferences under uncertainty AUD. 23 Rational expectations and depth of reasoning in strategic interactions Big data in the lab - how do consumers fare when predictive algorithms work against them? Anchoring in bargaining The precautionary principle as a heuristic patch AUD 24. Getting to the Top: affirmative actions in multi-stage tournaments How does affirmative action affect gift exchange? Evidence from labor market
