You will receive an answer to your application by e-mail if you do not have a digital mailbox.

You need to add documentation from a physician/specialist. It must describe what arrangements you need, and must be signed and stamped by the physician/specialist. You can forward documentation within three weeks after the deadline.

Special examination arrangements will be granted for all written school examinations, and if you apply for extra examination time, this will also be granted for individual take-home examinations lasting 12 hours or less. If you do NOT wish special arrangements for any particular examination, let us know by email at [exams@nhh.no](mailto:exams@nhh.no) after you have received the answer to your application.

You can read more about special examination arrangements on our web site:

<https://www.nhh.no/en/exam-arrangements>

NB! Applications due to seasonal allergies are only assessed as an acute illness. The documentation must be dated one week before the first examination in the spring semester.

\* Special examination arrangements throughout your studies require valid documentation for the time period.
