

List of possible Innovation School internship industries/roles in the San Francisco Bay Area

Please select the industries you are interested in having an internship in and the type of role you would like to have. You can select as many industries and roles as you would like.

Note that there is an adverse relationship between the number of industries and roles you select (i.e. if you are interested in a very limited number of industries you must be flexible about the type of role and if you would like a specific role you have to be flexible about the type of industry).

This list is non-binding and you can change your preferences after being admitted to the Innovation School program. The list is also not a guarantee that you will receive an internship in the specific industries/roles you have selected.

Name: _____
