

## BERGEN ECONOMICS OF ENERGY AND ENVIRONMENT RESEARCH CONFERENCE

### Keynote speakers

NHH, Bergen, Kristian Gerhard Jebsen Centre 12 – 13 May 2014

On behalf of the Norwegian Association for Energy Economics (NAEE) and the Energy and Environment Group at NHH, we look forward to welcoming our keynote speakers. They will present their current or recent research on the important topics that are energy policies, environmental policies and climate.

Derek Bunn

Professor of Decision Sciences, Management Science and Operations  
London Business School

#### “Modelling the Emerging Price and Asset Performance Risk in Power Markets”

Professor Bunn is currently a Professor at the London Business School and the Editor-in-Chief of the Journal of Energy Markets. Author of over 200 research papers and 10 books in the areas of forecasting, decision analysis and energy economics, he has also been recipient of several professional and industry awards, including the Goodeve Medal of the UK Operational Research Society in 1994. His work has been cited in over 4000 publications and translated into many languages. He has been a regular keynote speaker and chair at international research and practitioner conferences, as well as an advisor to several governments and many companies.

Knut Einar Rosendahl  
Professor in Economics  
NMBU

#### “Petroleum Policy as Climate Policy”

Professor Rosendahl is a well-renowned economist and researcher on international energy resource markets and climate economics. Since the 1990s he has contributed significantly to the modeling literature of natural gas and crude oil markets. More recently, he has focused on the economic analysis of climate change and climate policy.
