### POLICYORIENTED PANEL DISCUSSION:

Resource Management and Rights in Light of Norway's Debate on Fisheries Reform.

The question of whether private individuals - or communities - can hold rights to fish in the future is perhaps relevant even to those interested in climate policy. If someone present can hold rights in the future, can someone future hold rights in the present? Can I or the King be sued by someone unborn for not mitigating climate change?

**We look forward to welcoming you to BEEER 2015!**

Kind regards,

BEEER Conference Committee
