

BEST MASTER THESIS AWARD

DNV GL and NAEF have set up an award for the best master theses in energy economics. The award criteria are:

1. The topic must be related to the economics of energy, environment and/or natural resources
2. The thesis is ready for submission or has been submitted within the previous 12 months.

Submission deadline for Best Master Thesis Award is March 31 to beeer-conference@nhh.no.

The award committee is chaired by associate professor Olvar Bergland, NMBU.

The award for the best thesis is NOK 15 000 plus a one-year membership in NAEF. Finalists will be invited to present at the BEEER conference.

NHH

BEEER, the Bergen Economics of Energy and Environment Research Conference, is arranged jointly by the ENE Center at NHH and NAEF in spring every year. The conference provides a venue for scholars and researchers to present their research and exchange ideas within the area of energy, environment and climate change. The conference is held over two days and includes presentation by keynote speaker and delegates.

Driven by our purpose of safeguarding life, property and the environment, DNV GL enables organizations to advance the safety and sustainability of their business. We provide classification and technical assurance along with software and independent expert advisory services

to the maritime, oil and gas, and energy industries. We also provide certification services to customers across a wide range of industries. Operating in more than 100 countries, our 12,500 professionals are dedicated to helping our customers make the world safer, smarter and greener.

NAEF NORWEGIAN ASSOCIATION *for* ENERGY ECONOMICS

NAEF is the Norwegian affiliate of the International Association for Energy Economics (IAEE). We advance the knowledge, understanding and application of economics across all aspects of energy and foster communication amongst professional energy analysts. Membership in the International Association for Energy Economics is open to anyone worldwide who has an interest in the fields of energy economics.
