JOB MARKET SURVEY 2022

[NHH.NO](https://www.nhh.no)

JOB MARKET SURVEY 2022

Every year, we invite all master graduates to participate in NHH’s Job Market Survey, about six months after their graduation. We survey our graduates’ transition to the labour market, and ask them to assess the programme they attended in terms of relevance, strengths and weaknesses. NHH puts the results to use in its continuous work to maintain and improve our position as a high-quality institution, providing relevant and strong graduates for the labour market and society as a whole.

ABOUT THE SURVEY

We carried out the survey between 15 December 2022 and 11 January 2023. Out of 543, 274 graduates (46 %) of the MSc in Economics and Business Administration programme participated.

MAIN OCCUPATION SIX MONTHS AFTER GRADUATION

DO YOU CONSIDER THE JOB TO BE RELEVANT TO YOUR EDUCATION?

DID YOU GET A JOB BEFORE GRADUATING FROM NHH?
